

NATIONAL HEALTHY HOMES TRAINING CENTER™ & NETWORK

Bed Bug Management for Affordable Housing Providers

**Have you been doing it all wrong?
We'll give you the information you need to do it right!**

What is this course about?

1. How being proactive in your approach will set you up for success.
2. How basing your bed bug management on resident reports will ruin your budget and set you up for failure.
3. Why and when to do a building-wide assessment.
4. How to be successful in working with residents to manage bed bugs.
5. Making sure your pest control company produces results.

As a student in this limited-seat course, you will take an active role in solving common challenges, identifying problems, learning what strategies work to kill bed bugs, and how to find a good pest management professional.

Trainer Bio:

Richard Cooper is the Technical Director for Cooper Pest Solutions. He is recognized as one of the world's leading experts on the subject of bed bugs and bed bug management. Richard has been consulted as an expert witness in over 30 law suits and insurance claims dealing with bed bugs and has been cited as an expert by a wide variety of newspapers and television and radio shows. Richard received a PhD in Entomology from Rutgers University in 2015.
