

Join other clinical professionals to learn about:

- screening and testing protocols
- interventions for children and pregnant mothers
- implications for medical treatment
- submission of samples and blood lead data
- educational resources for families

This free training will take place via webcast. If you prefer to attend in-person, you can specify in the registration. The agenda and online registration link will be available by September 1. For more information, contact Megan Hughes at meganhughes@unc.edu.

The training is provided as a partnership between the NC DHHS Childhood Lead Poisoning Prevention Program and State Laboratory of Public Health. Funding is provided by the Centers for Disease Control and Prevention (grant number 1UE1EH001276-01).
