

Healthy Homes Training for Health and Housing Professionals

This **free** training is designed to help health and housing professionals understand the **sources, health effects, and solutions** for addressing:

- Lead
- Mold and moisture
- Pests
- Home safety
- Poor indoor air quality

Professionals will learn strategies and receive materials useful for sharing information with families whose health is affected by home hazards.

Training facilitated by:

Megan Hughes, UNC Institute for the Environment
Kenneth Greene, Alamance County Health Department

Please register by **March 1** by contacting
Megan Rodgers at merodgers@unc.edu.

Wednesday, March 8, 2017
10am-12pm
Municipal Room,
Department of Planning and
Community Development,
425 S. Lexington Ave,
Burlington, NC 27215

All participants are eligible to be entered into a drawing for door prizes!
