

Healthy Homes and Lead Poisoning Prevention: A Free Training for Community-Based Educators

This **free** training is designed to help lay health advisors, health ministry chairpersons, and other community-based program educators understand the **sources, health effects, and solutions** for addressing:

- ✓ Lead
- ✓ Mold and moisture
- ✓ Pests and pesticides
- ✓ Home maintenance
- ✓ Poor indoor air quality

Participants will receive materials useful for sharing information with families whose health is impacted by home hazards.

Saturday, April 1, 2017
10am-12pm

Chatham Agriculture Building
(next to the health department)
Pittsboro, NC
